

Thomson Worldscope Fundamentals

Seize Opportunities, Develop Strategies—Improve Performance

- Construct successful strategies and investment advice with industry and sector analysis.
- Make informed investment recommendations with the ability to compare the capital structures and financing strategies of corporations.
- Examine and analyze opportunities with a wealth of company data.

New! Click-through Function

- Links a calculated item to its components and original filing source.
- Clarifies where Worldscope values derive from.
- Simplifies adjustments if a different calculation method is preferred.
- Spans some 4,500 mostly U.S. firms—with more firms and linked content to come.

The premier financial fundamentals data resource, offering a wealth of information in a user-friendly, comprehensive and fully customized format

Utilizing uniform definitions and standardized statement organization, Worldscope Fundamentals ensures greater transparency and improved timeliness of information. Widely respected for content quality, depth of detail, extensive company coverage and content presentation, Worldscope provides annual and interim/quarterly data, detailed historical financial statement content, per share data, calculated ratios, pricing and textual information. Worldscope's coverage represents more than 95 percent of global market capitalization.

Extensive Coverage

- More than 50,000 companies incorporated in over 70 countries. (Over 33,000 of these companies are actively covered.)

Regions	Distribution of active company coverage
Americas	42%
Europe/Africa	26%
Asia/Pacific	32%

- Up to 1,600 data items (including ratios) are potentially available for each full annual record.
- Approximately 800 items are available for small-cap companies' annual records.
- Some 250 data items are available for each interim U.S. company record; up to 180 data items for non-U.S. interims.
- Companies meeting any one of several criteria, including market capitalization equal to or greater than US \$100 million, receive full data set coverage. Others receive limited data set coverage.

Valuable Content

- Standardized financial statements (balance sheet, income statement, cash flow statement)
- Calculated ratios (annual and five-year averages for growth rates, profitability, leverage, liquidity, asset utilization, etc.)
- Weekly and monthly market price data; market capitalization
- Extensive per share data (EPS, BVPS, CFPS, etc.)

Products

- Thomson ONE
- Thomson Datafeeds
- Thomson e-PIB
- Thomson Research
- Thomson Dataworks
- Thomson IR Channel
- Thomson Quantitative Analytics
- Datastream Advance
- Datastream Data Loader
- Varied third-party distributors

- Security and market identifiers
- Product and geographic segment data
- Textual profile data (including officers, address, web address, major shareholders, business descriptions)
- Restated data available from 2004 in addition to original accounts.
- Evolving click-through functionality provides unprecedented data transparency by displaying calculations of Worldscope values and linking to where the individual components appear in the original source document.

History Available

Worldscope offers comprehensive annual history from the late 1980s for firms in developed markets, and from the early 1990s for firms in emerging markets. Some annual records date back to 1980. Worldscope also provides interim history from 1998 for U.S. companies and from 2001 for non-U.S. companies.

Advantages

- Standardized presentation of adjustments increases the comparability of data among companies; differences in accounting terminology, presentation, and language are normalized.
- Hundreds of pre-calculated per share and growth/ leverage ratios are offered.
- Four major templates—Industrial, Insurance, Banks and Other Financial—are available to facilitate comparisons between companies and industries within and across national boundaries.
- Speakers of more than 20 different languages with extensive accounting expertise update the Worldscope database from strategic locations ensuring a timely update cycle.
- Click-through functionality enhances data transparency, understanding and usability.
- Clients have access to 24-hour client support.
