

## Premier medical sources. Powerful legal content. Now combined in a single location.

Gain a deeper understanding of medical issues to help:

- Evaluate the worth and legal merit of your client's claim, injury, case
- Converse confidently with doctors and other medical experts
- Explain medical events to clients, jury members, and other lay people

### Medical Litigator on Westlaw

Now litigators have one-stop access to the same medical information that doctor's use. In a single search, Medical Litigator on Westlaw brings together the best legal AND medical information related to your specific legal topic.

### It's easy to find complicated medical information

New search technology makes complex medical information extremely easy to find, understand, and deploy to your legal advantage. (see sidebar)

### Authoritative medical content

Medical Litigator provides easy access to the same authoritative drug and disease information

relied upon by doctors and medical clinicians, including:

- Approximately 100 full-text medical journals including New England Journal of Medicine
- Medline Abstracts (with same day document delivery service for the full text articles)
- Medical guides, textbooks, and dictionaries
- 1,800 high-definition medical images
- FDA warnings and recalls
- Drug and medical device evaluations

### Combined with premier legal content

Medical Litigator is linked throughout Westlaw. (Cases, Jury Verdicts, News, and more.)

*Medical Litigator features a new and exclusive thesaurus-powered search engine that seamlessly translates your plain English terms into the precise medical language needed to retrieve the most accurate and comprehensive medical information.*

### Searching Medical Litigator is as easy as 1-2-3:

1. Describe your issue using plain English – you don't need to use medical terms – or even know what databases to search.
2. Medical thesaurus enhances search by adding medical terminology – so you know you're getting all the relevant information available.
3. Review comprehensive medical and legal results – all in one place, all from one search.
