“Now, when you run a search for primary law on Westlaw®, you get more than your search results. You get ResultsPlus®:

“Next to your search results, you see a ResultsPlus list of links to analytical materials related to your search topic. You might see links to *ALR*® annotations, *Am Jur*® articles, analysis and guidance in leading treatises, and even legal briefs arguing your issue.

“You will also find West Key Numbers and, possibly, state materials for your topic.

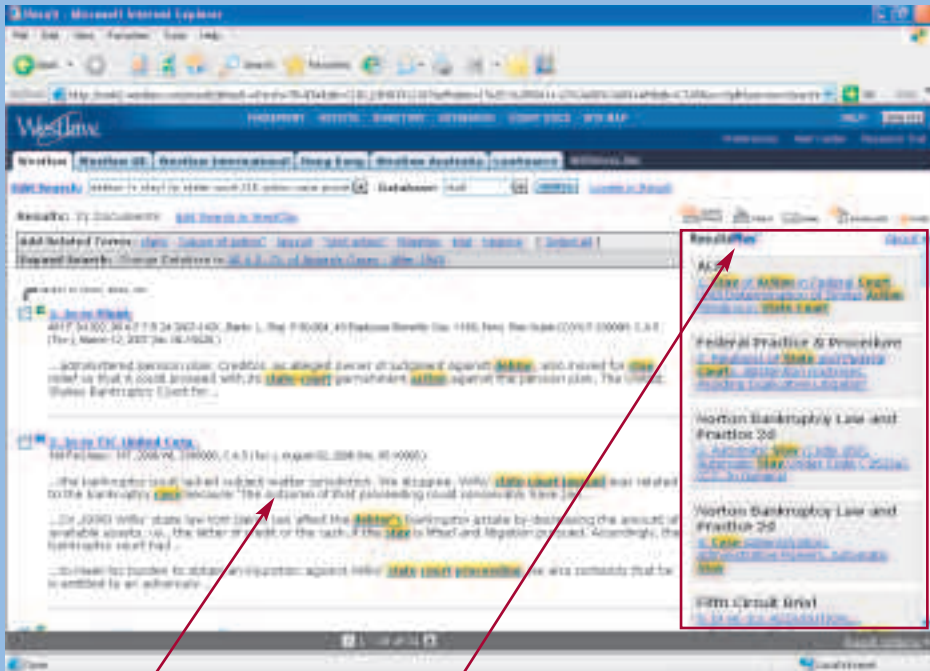

“Just one click on a ResultsPlus link and you can quickly expand your research to materials that greatly broaden and deepen your understanding of an issue.

“Other attorneys have told me that having ResultsPlus is like having a large analytical law library on their desktop – at a tiny fraction of the cost, and much easier to search!”
