# NEWPORT

## HOSTED SYSTEM ACCESS REQUIREMENTS

## OVERVIEW

Newport systems are hosted on high-end servers at a state-of-the-art hosting facility and are available to customers over a secure Internet connection.

## KEY POINTS

- Newport systems utilize proprietary Microsoft technology to deliver rich interface functionality and, as such, can only be accessed with Microsoft's Internet Explorer.
- Due to the volume of information that is available, a high speed Internet connection is required.
- A valid username and password is required to access Newport's hosted systems; contact your account manager for more info.
- Newport utilizes standard Secure Sockets Layer (SSL) technology to encrypt information traveling between the hosted site and the browser.

## MINIMUM REQUIREMENTS

- Microsoft Internet Explorer 6
- Screen resolution of 1024 x 768 pixels
- Pentium IV class CPU
- 256MB RAM (512 recommended)
- High-speed Internet connection (minimum of 128Kbps)
- MS Excel 2000 (optional - for exporting results)
