

ONESOURCE Tax Provision

Integration with SAP S/4HANA®

ONESOURCE® Tax Provision is a market-leading, patented calculation engine that computes income tax provision journal entries and makes them available for SAP S/4HANA, reducing risk and time spent on tax provision during financial close. The ONESOURCE Tax Provision integration with SAP S/4HANA is a SAP Endorsed App that uses the SAP Business Technology Platform to automate the tax provision with faster results and greater accuracy.

ONESOURCE Tax Provision, fully integrated with SAP S/4HANA, allows tax departments to have complete confidence in their data strategy, improved efficiencies in their financial close, and the assurance that reports are easily auditable by external advisors.

Improve accuracy

Mitigate the risk of inaccurate reporting or issuing a restatement, improving shareholder confidence

Drive data confidence

Utilize a single source of truth via a seamless data pull directly from SAP S/4HANA; validate ERP data quickly, to identify accounts or detect balance adjustments

Greater control

Full transparency and traceability of the company's tax provision improves control and governance

Quicker reporting

Quickly and accurately calculate tax provisions with management reports and self-reconciling reports

Easy import

Automate the loading of data from SAP S/4HANA to help calculate tax provisions during the company close cycle

Increase confidence

Reporting from ERP data and automated software increases stakeholder confidence and protects the company brand

Real connection means maintaining a clean core for real benefits

Efficiency

- Real-time integration with trial balances in SAP S/4HANA and ONESOURCE Tax Provision (OTP) to compute income tax provision journal entries and post them back in SAP S/4HANA
- Execute this process between SAP S/4HANA and OTP automatically

Control

- Provide access to sensitive financial non-public data based on user roles and privileges
- Secure connection between SAP S/4HANA and OTP for data transmission

Assurance

- Full traceability of data actions with user and date timestamps for governance and audit defense
- Full supporting business-focused documentation for the source data and tax calculations to explain the 'walk of data' from book trial balances to tax basis trial balances

SAP Endorsed Apps are a category of solutions from SAP's partner ecosystem, meant to deliver value with desired outcomes, that help customers become best-run, intelligent enterprises. SAP Endorsed Apps are premium certified by SAP with added security, in-depth testing, and measurements against benchmarks.
