

## California AB1305 Disclosure Document

Organization Name: Thomson Reuters

Completion Date: December 17, 2025

### Purpose:

The purpose of this document is to share information required to be disclosed by California's AB1305 Voluntary Carbon Market Disclosures beginning January 1, 2025.

### Overview:

California's AB1305 legislation requires organizations with operations in California that buy or sell voluntary carbon offsets, or make net zero and carbon neutrality claims, to disclose specific information about these offsets and sustainability commitments. This legislation aims to provide transparency around how companies offset their emissions and how they measure progress toward achieving their net zero and carbon neutrality claims.

Thomson Reuters sources and has sourced carbon offsets since 2020. Below you will find all information on Thomson Reuters sourced carbon offset projects, the third-party verification of GHG emissions, and Thomson Reuters emission reduction pathway including Thomson Reuters approved Science Based Targets.

### Offsets, Greenhouse Gases & Science Base Targets

This chart provides information required to be disclosed regarding net zero and carbon-neutral claims.

1. Agendi Partners Inc. certifies that 107,349 verified carbon units were retired on behalf of Thomson Reuters. Thomson Reuters is the sole owner of these retired offsets and Agendi Partners Inc. acted on their behalf.

**2.) Please describe how your organization is measuring progress towards its net zero or carbon neutral goal(s). For the net zero and carbon neutral goal(s) your organization has achieved, please detail the ways your organization ensures it continues to meet these achievements.**

Thomson Reuters calculates its annual GHG footprint and monitors the emissions reduction trajectory towards its SBTi near-term target. Thomson Reuters remains carbon neutral through offsetting the remaining portion of its GHG footprint through carbon offsets.

**3. Information on greenhouse gas emissions.**

3a. Has an independent third party verified your organizations greenhouse gas emissions?

Yes

3b. If you selected "Yes" above, please fill out the table below for all verified emissions data from the reporting year of the earliest net zero or carbon neutral claim to the present.
