Value Alignment for Legal Departments

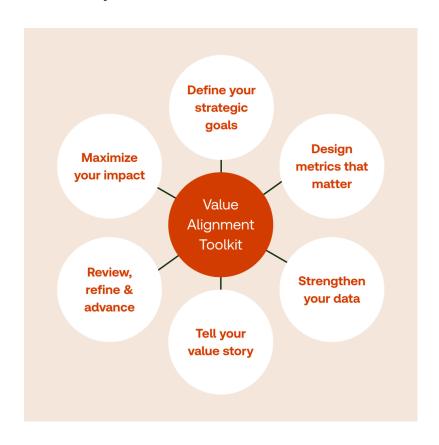

An A-Z guide to maximize impact

The Value Alignment Toolkit, structured into six interconnected sections, guides users from foundational clarity to strategic execution. It helps showcase and enhance legal value, emphasizing continuous improvement and scaling success through practical resources like videos, checklists, and insights.

This isn't a static guide—it's a living resource. We continuously update it based on insights from legal leaders, ensuring you have the tools to meet today's demands and tomorrow's opportunities.

These six sections work together, moving from foundational to tactical to strategic, to build a complete value story.

Inside the toolkit

Introduction to value alignment	Start your journey and learn about the components of the toolkit.	 Value Alignment Roadmap A-Z The Four Spinning Plates Model The Role of the Legal Department
<u>Define your</u> <u>strategic goals</u>	Start with strategic clarity, establishing the business connection, not just setting goals.	Ambition SettingMore coming soon!
Design metrics that matter	Make smart choices about measurement. Selecting the right metrics is more important than simply creating more metrics.	 Best Practice Metrics Framework Metrics Masterclass Webinar Series Metric Library - coming soon! More coming soon!
Strengthen your data	Build a solid foundation. Focus on the quality of the outcome not just gathering data.	Voice of StakeholderMore coming soon!
Tell your value story	Communicate effectively, showcasing legal's real value strategically and powerfully.	Tell Your Value Story in One SlideMore coming soon!
Review, refine & advance	Continuously improve and level up. This ongoing journey responds to business needs, rather than being a one-and-done activity.	Coming soon!
<u>Maximize your</u> <u>impact</u>	Deliver full value across all four plates. Scale your success and learn from peers.	Coming soon!
