### California Calculators and Tools

You will find the California Tools & Resources widget on the right side the California Jurisdiction page.

### [California Tools & Resources widget](#)

### 1) California Family Law Property Declaration and Distribution

This calculator allows you to easily enter all property, community or separate, and all known community and separate assets and debts for your client's case. The calculator simplifies the entry of transactions, dramatically reducing the time it takes to handle family law matters.

### 2) California Guardianship and Conservatorship Accounting Calculators

These calculators allow you to easily create a list of all assets and liabilities in a guardianship or conservatorship matter. The tools also eliminate the need for you to manually calculate totals in a Standard or Simplified Accounting form. Separate calculators are available for Guardianship matters and Conservatorship matters. Both function the same way by simplifying the entry of transactions, dramatically reducing the time necessary to handle your guardianship and conservatorship matters.

### 3) California Guardianship and Conservatorship Inventory & Appraisal Calculators

These calculators allow for easy entry of all property of a minor or conservatee that is to be administered and any appraisals of such property by the probate referee. The California Guardianship and Conservatorship Inventory and Appraisal Tools simplify the entry of transactions, dramatically reducing the time necessary to handle Guardianship and Conservatorship matters. Separate calculators are available for Guardianship matters and Conservatorship matters. Both eliminate the need to manually calculate inventory totals.
