### What to expect from the data conversion

The overall objective of the GoSystem Tax data conversion is to produce accurate client data for the processing of 2023 tax returns. Data conversions are from the prior year (2022) to the current year (2023). Where applicable, 2022 amounts will generally appear as prior-year amounts in the 2023 return.

---

**Note:** 1040 returns are converted to returns of the same year. For example, 2022 returns will be converted to 2022 returns and then rolled to 2023.

1041, 1065, 1120, and 990 returns are converted to returns for the next year. For example, 2022 returns will be converted to 2023 returns.

---

We have made every effort to consistently and accurately convert the data listed in this document. However, due to inherent differences in the way ProSystem fx and GoSystem Tax store and display values, inconsistencies do exist in isolated instances. In some instances, GoSystem Tax requires an entry in a field that does not exist or was blank in ProSystem fx. In those isolated instances, a period (".") was placed in the required GoSystem Tax field. To ensure that the 2022 data is accurate and complete, you should conduct a careful review of your converted data and make additions or modifications in GoSystem Tax as necessary.

## Detailed information on items converted and not converted

## Conversion notes and exceptions

The following section contains additional detail to assist in review of the information that has been converted.

### ***Federal***

#### **Dates**

If only the year was entered in a ProSystem fx date field, the date converted to GoSystem Tax as July 1 of that year. If only the month and year were entered in ProSystem fx, the date converted to GoSystem Tax as the first of the month.

#### **Dependents**

- Dependents marked as inactive were converted.
- If the *Dependent Relationship* field is blank or contains an entry that is not available in GoSystem Tax, the information is converted as Child.

#### **Two-Year Comparison**

2022 ProSystem fx federal two-year comparison amounts convert to prior-year amounts on 2023 Organizer screens.

#### **Schedule A**

- Carryovers of Disallowed Investment Interest Expense convert like-kind descriptions to Investment Interest Expense in Itemized Deductions in the Organizer tab. You will need to enter carryover amounts in the Organizer > Itemized Deductions > Taxes and Interest > Investment Interest Expense > Investment Int. Exp. - Other Information folder.
- 2022 Contribution Carryovers will convert to Joint for married filing joint returns and will convert as Taxpayer for all other filing statuses. 2021 and prior-year amounts will convert as assigned in ProSystem fx.
- Non-cash items, regardless of amount, will convert to non-cash items less than \$500.

#### **Schedule B**

Descriptions for ProSystem fx special interest codes 1 through 6 (used with Interest Income) will convert as regular Interest Income.

#### **Estimates**

Review prior-year estimated tax payments and overpayments applied.

#### **Schedule K-1 Activities**

- Assets entered in the Depreciation and Amortization folders will not convert.
- For 1065 and 1120 Schedules K-1, a Partnership name and Corporation name must be entered. Otherwise, the activity will convert with a period (".") as the description name.

#### **Depreciation**

- Asset descriptions are limited to 20 characters.
- Retired assets were not converted.
- Business use percentage was converted only when percent excluded was used in ProSystem fx.
- Review the AMT accumulated depreciation associated with assets on rental real estate activities where depreciation expense was allocated to others.

**Depletion**

Depletion information does not convert.

**State****State Depreciation**

State-specific depreciation amounts do not convert.

**State Overpayment, Estimate, and Underpayment options**

- The following Overpayment options were converted, if applicable.
  - Apply to successive
  - Apply entire
  - Refund
- The following Estimate options were converted if applicable.
  - Suppress compute and print
  - Estimate with alphabetic information only
- The option to suppress current-year underpayment penalties converted, if applicable.
