

ONESOURCE Indirect Tax US Content March Notice

Issue Date: 10 March 2026

Notice No: 2

IMPORTANT NOTICE

Rental Authorities

This notice is for customers utilizing Tax Type Overrides on Rental Authorities. All other customers may ignore.

In the March Content Update #2, released to customers on 26 February 2026, updates were made to existing Applies to All Commodities rules. It was later identified that an additional change occurred in some existing rental authorities where the Tax Type was changed from Any to Rental.

This issue will be corrected in the April Content Update #1 to be **released to customers on March 25th**. The April Content Update #1 will resolve this issue by returning the Tax Type to Any for impacted rules and restore the prior behavior.

For customers who need to implement these changes ahead of the official content update, we recommend that you configure a TransEditor to override the Tax Type to Rental.

We apologize for any inconvenience this may have caused. Please contact [ONESOURCE Customer Support](#) if you require any assistance.
