

ONESOURCE Indirect Tax

Canada Content November Update

Issue Date: 25 October 2022

Update No: 1

ABOUT THIS UPDATE

The November Content Update #1 for ONESOURCE Indirect Tax Determination contains updates to Canada Content. This summary includes all changes to Canada Content included in the 2022.11.1.CANADA.G/G and 2022.11.1.CANADA.G/G.2 files. Versions 5.5.0.0 and subsequent releases are supported by this update.

Important Note Regarding Content Update Versions

In Determination 5.7.0.0, we added tables and columns to the tax content database in support of Compliance and Allocated Charge functionality. Tax content data created for these features is not available to Determination versions 5.7.0.3 and prior. Thomson Reuters has therefore made the decision to produce two versions of tax content. Beginning with the March 2016 Content Update #1, the Content Update version that you download and import into your system depends on your currently installed version of Determination.

- If you are running Determination 5.7.0.3 or prior, you must use Compatibility Version G tax content.
- If you are running Determination 5.8.0.0 or a subsequent release, you must use Compatibility Version G.2 tax content.

For more information on how to access and install the correct content, see **Applying the Content Update** at the end of this letter.
