VERSION 2.0.2.3

UPDATE SUMMARY

ONESOURCE Global Tax SAP Ariba solution 2.0.2.3 is a maintenance release to fix an identified bug.

.FUNCTIONAL CHANGES

DECIMAL ERROR ON LINE-ITEM CREDIT MEMO TRANSACTIONS

Issue: One Source Global Tax for Ariba 2.0.2.2 v3 ERP posting call generates an error message “Non-terminating decimal expansion; no exact representable decimal result” for Line item Credit Memo Transactions on Ariba

Solution: Debug the OSGTA 2.0.2.2 v3 (API2) ERP posting call to generate complete and correct posting results for all duly completed Line-item Credit Memo transactions on Ariba irrespective of the decimal status.

ERROR ON AUDIT REQUEST

Issue: One Source Global Tax for Ariba 2.0.2.2 v2 Audit request is truncated with an invalid class exception error message for Ariba Audit request transactions initiated on or before 8th October 2020.

Solution: Update OSGTA 2.0.2.2 v2 to eliminate the invalid class exception error and to process all Ariba Invoice Audit Request transactions successfully irrespective of the completion date on Ariba.
