## VERSION 1.3

---

### UPDATE SUMMARY

Thomson Reuters is pleased to provide a new version release of **ONESOURCE E-Invoicing Integration for Oracle Cloud** on top of the original release. The 1.3 version supports the following enhancements and solutions:

- A. Implementation of Oracle Common Integration Scheduler for all BIP Custom Integrations. This solution will help execute all BIP Custom integrations directly from Oracle at the desired schedule and will also support ad hoc integration execution for individual transaction records.
- B. Extended support of Italy E-Invoicing solution for AR, AP and Italy Invoice Report ( IIR ) using IDT as Tax Solution. The same solution can be extended to other Tax Solution providers as well as for Oracle Fusion Taxes for different countries.
- C. Extended support of Oracle E-Invoicing solution for additional countries and supported all the custom requirements for these countries i.e. Israel, Romania, Italy etc.
