- [Additional Implementation of JAVA Version 11](#)

UPDATE SUMMARY

The ONESOURCE Indirect Tax Integration for SAP Basic (US/CA) version 5.2.3.0 is a release to allow SAP JCO Integration Server to start without configuration of Sabrix Version URL property in sabrixconnection.properties file.

Important Notes:

From version 5.2.1.0 onwards, this integration is now compatible with Java Version 8 and Version 11.

Additionally, from version 5.2.2.0 onwards, this integration is also compatible with SAP SNC (Secure Network Communication) and SAP JCO Library v3.1.3.

From version 5.2.2.1 onwards, we have also upgraded the logging library from log4j to log4j2. Customers can refer to the installation guide for configuring the integration logging configuration file SabrixIntegrationServerLoggingConfig.xml which has been modified for log4j2.

The following are the highlights for this release:

TECHNICAL CHANGES

Support for Starting of Integration Server even in cases where the Sabrix Version URL is not configured or configured incorrectly.

ISSUE: Integration Server is unable to start when Sabrix Version URL property is not configured or when an invalid URL is provided, or when an empty value is provided.

SOLUTION: Integration version 5230B is now upgraded to allow the Integration Server to start even when the Sabrix Version URL property *sabrix_version_url* is not configured or when an invalid URL is provided, or when an empty value is provided.

Note: The property *sabrix_version_url* is defined in `SabrixConnection.properties`

DOWNLOAD INSTRUCTIONS

- a. To download and install this release in UNIX Environment, please refer to the DOWNLOAD INSTRUCTIONS FOR UNIX document.
- b. To download and install this release in WINDOWS Environment, please refer to the Install Instructions Using New Windows Service Apache Commons Daemon Procrun document.

ADDITIONAL NOTES:

- SAP JCO integration 5.2.3.0B is compatible with JAVA Version 11.
- JAVA Version 11 onwards 32-bit version is not available.
- JAVA Version 11 comes with JDK only and there is no separate JRE installable software.
