User Workflow

Workflow tabs

The workflow tabs are set out in a logical flow for users to complete their reports.

The workflow tabs available are further detailed in the table below.

	DESCRIPTION
Entity	Within this tab users can complete entity details which usually remain the same during the reporting period.
Import / Journals	Within this tab users can import data from trial balances, maintain account codes, maintain categories and complete account assignment. Within this tab users can create / view / modify journals and trial balance imports.
Non-Import	Within this tab users can complete all other information not captured in the trial balance e.g. data for statement of cash flows.
Report	Within this tab users can preview / edit / complete reports.

User Workflow Diagram

General Template Information

- The template contains full financial statements
- The template provides option to generate different reports
- The template can be used for consolidated/ group financial statements
- The template can be used for entity size small, medium and large

Main Menu Options (Global Templates)

As per the above screenshot main menu has following options

1. Entity: This section is used to enter entity-related details along with management and address details as mentioned below. z

This has 3 options

a. Entity:

- i. General: This section is used to enter entity details such as the entity name, and other relevant information, as shown in the screenshot below.

Additional details such as the legal entity name, country of incorporation, registration numbers, and other basic information can be entered as shown below.

Users can add more information by inserting extra rows and columns using the **+Add** option.

ii. Financial Period: Financial Period page is used to adjust the financial period for the entity.

b. Management

i. Officers: Details of the officers can be entered by users as shown in the image below. Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

- ii. Managers: Details of key management personnel can be entered by users as shown in the image below. Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

c. Address| Service providers:

- i. Address: Address of the reporting entity along with its main office/ office/ principal place of business, registered office, other branch office, factory or industry details can be added in this section.

Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

- ii. Service providers: Details of service providers to the reporting entity is given here. Also, users can add details of Additional service providers.

Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

2. Import Journals: This section is used to import the trial balance and set the reporting period. It follows a step-by-step process to load the trial balance into the system.

After importing the trial balance, mapping files must be loaded, or it could be done manually. These mapping files are used to link the ledger accounts from the trial balance to their respective categories.

Once the accounts are mapped to the appropriate categories, the corresponding amounts will automatically flow into the category tables of the financial statements.

Click on the import button and import the trial balance and its codes. Click on 'Add Period' for adding '**prior period**' and 'prior to prior period' to the financial statements and creates comparatives.

As mentioned, below browse the trial balance file or drag and drop it.

The screenshot shows the 'Upload' step of the import process. The top navigation bar includes 'Entity', 'Import | Journals', '[FY] Non-Import', '[FY] Non-import [Custom]', '[FY] Report | Settings', 'Report', 'Period Setup', 'Administration', and 'Help'. The main header displays '31 Dec 2025 - IFRS TEST KALI' and a 'RECALCULATE EXPRESSIONS' button. The process flow consists of four steps: 1. Upload (Select file), 2. Map (Identify and map source data), 3. Clean (Ignore accounts), and 4. Complete (Verify data and settings). The 'File' tab is selected, showing a 'Drag a file here or Browse for file' button. Below, the 'Selected file info' section shows 'IFRS.CT (02.2025) (P 6.28.9259 C 9.0 - Trial Balance) Consol (E1).xlsx' with a 100% progress bar. The 'Select Import Settings' section has radio buttons for 'Default entity settings' (selected) and 'Stored entity settings', with a 'New Import Settings' dropdown.

Once the trial balance is imported select the heading row and change the column settings as required, as shown in the example below.

The screenshot shows the 'Column Settings' dialog box. The top navigation bar is the same as the previous screenshot. The main header displays '31 Dec 2025 - NZ TB TEST' and a 'RECALCULATE EXPRESSIONS' button. The process flow shows steps 1, 4, and 4. The 'Column Settings' dialog box has the following fields: 'Code *' (IMP 001), 'Name *' (CP), 'Classification *' (Original Trial Balance), 'EntityCode *' (NZ TEST), 'Ending Date *' (2025-12-31), 'Year To Date' (toggle on), 'Currency Conversion' (toggle off), 'Journal Replacement' (toggle off), and 'Round Amounts' (toggle off). The background shows the 'Upload' step with 'Sheet1' and 'Sheet2' tabs, and a table with columns 'Header' and 'Acc No'.

As shown below, select the accounts from the trial balance, which needs to be ignored so that the unselected accounts and their amounts can flow correctly into the financial statements.

The screenshot shows the 'Import' step of the import process. The top navigation bar is the same as the previous screenshots. The main header displays '31 Dec 2025 - IFRS TEST KALI' and a 'RECALCULATE EXPRESSIONS' button. The process flow shows steps 1, 2, 3, and 4. The 'Import' step shows a table with columns 'Code', 'Description', and 'Amount'. The table lists accounts 1306 through 1404, including 'Licences with indefinite useful life', 'Goodwill', 'Goodwill - Accumulated amortization', 'Plant and machinery', 'Accumulated amortization - Plant and machinery', 'Motor vehicles', and 'Accumulated amortization - Motor vehicles'. The 'Amount' column is empty. The bottom of the screen shows 'Page 1 of 10' and '1 to 25 of 227'.

Once all the setup steps are completed, click **Update/Save As**, and then click **Continue** to proceed to the final step. Please refer to the example below.

Note: The trial balance accounts and amounts will only flow into the financial statements after they have been assigned to the appropriate categories. This assignment can be done manually or by importing a mapping file.

3. **Non-Import:** This section includes all non-category tables, which are prepared in accordance with the applicable legislative requirements and are used in the annual financial statements.

Non-category tables are those in which the amounts are not linked to the trial balance. These values can be manually entered by users. Additionally, users have the option to add expressions within these tables to automatically populate amounts.

Entity 1	Description	Section	Row Ref.	End (Current Period)	End (Prior Period)	End (Prior Period 2)
	Section: A (7 items)					
	Net (gain)/loss on cash flow hedges	A	A1	\$265,000.00	(\$10,000.00)	
	Net change in costs of hedging	A	A2	\$10,000.00		
	Net loss on debt instruments at fair value	A	A3	\$6,000.00		
	Net (gain)/loss on equity instruments desig	A	A4	\$8,000.00	(\$3,000.00)	
	Revaluation of office properties in <insert	A	A5	(\$254,000.00)		
	Net gain on hedge of net investment	A	A6	(\$83,000.00)		
	Remeasurement (gain)/loss on actuarial g	A	A7	(\$110,000.00)	\$117,000.00	
	Σ					

4. **Non-Import Custom:** This section provides empty non-category tables, where users can customize the table based on their requirements. Please refer to the image below.

Features provided to edit the table:

- >> +Add: Used to add more rows
- >> Delete: Used to delete any row
- >> +Copy Colum: Used to add Column
- >> Rename Column

5. **Report| Settings:** Please see below for further information about this section.
6. **Report:** This section contains all the primary content related to financial statements and other relevant information. Please refer to the content below for further details.

Under the **Actions** menu, users can view, edit, or export the template.

The **Annual Report** serves as the financial reporting framework, prepared in accordance with all applicable legal, legislative, and reporting requirements. As shown below, users can add or delete content based on their specific needs.

Refresh: This button is used to refresh the specific report after each change, ensuring that all updates are accurately reflected.

The **Recalculate Expressions** option, as shown below, allows users to refresh the entire report after any changes have been made.

Every section of the report has an ellipses button which provides following options.

- a. Options: This section has further options as shown below

Name: This is name of the element which can be modified.

Alternative name in contents: Name of the element can be differently shown in the content list using this section. The check box should be clicked to avail this option otherwise the main name will be shown in the content list.

Display Setting: This setting includes 3 options Always, Conditional and Never.

Display Condition: You can enable or disable display conditions by setting the option to true or false.

Include in contents: Tick this checkbox if you want a specific element to be included in the content list.

Refer to the section below for more details about the content list.

Include in numbering: This tick box needs to be ticked if user wants the element to be sequentially numbered.

Page break before: A page break will be inserted before the element, allowing it to start on a new page

Keep to same page: The checkbox ensures that the element stays on the same page and does not continue onto the next page.

- b. XML Source: This section displays the XML code for the element. Users can modify the XML as needed to make changes to the element. However, it is recommended to use the provided options instead of editing the XML directly.

- c. Report Variables: This allows users to Add/Delete/Edit variables and expressions to the elements.

Users can add manual expressions and validate them before adding them as mentioned below.

- d. Highlight in Report structure: This allows a user to track the exact location of the element in the report structure seen on the left side of the screen.
- e. Review Comments: Any comments can be provided along with further deletion and edit options. Also, the comment can be filtered as Open/Resolved/Rejected. Please see below options

- c. Account Assignment: This is the section where users are required to assign the accounts into different categories. This is the step which enables the trial

balance accounts and designated amounts to flow correctly in to the financial statements.

This process is called mapping. A file can be maintained which is called as a mapping file containing the relational information between accounts and categories. This mapping file can be imported and exported as mentioned below.

9. Help: This section provides option of 'online Help' to user.

Report Options

1. Edit Style Set

This section provides the following options where users can implement changes across the whole report.

- Font: Family, Size, Colour, Effects, Capitalisation
- Paragraph: Alignment, Indentation, Spacing
- Date: Format
- Number: Currency format, Negative value colour
- Borders: Properties, Line Style, Line Colour, Line Width
- Spacing: Unit of Measurement, Outer, Inner, Cell Alignment
- Background: Background colour

Other than above mentioned option user can set numbering style sets as mentioned in below image:

Edit Style Set

Style Sets | **Numbering**

Select level to modify
 Add Level **Remove Level**

Style for this level
 Delimiter Prefix Suffix

Display previous levels

Confirm **Cancel**

2. **Edit Watermark:** Users can apply a watermark that appears across the entire report. The watermark can be either text or an image, depending on the entity's requirements and company branding.

Edit Watermark

Text Watermark | **Image Watermark**

Alignment

Confirm **Cancel**

3. **Spelling:** This option ensures a spell check over entire report.
4. **Review Comments:** Users can add comments to different sections of the report based on their requirements. By clicking this option, users can view a list of all comments and review them.

Review Comments - [Annual Report]

Filter

No Comments for this report

5. XBRL Validations: This option is used for XBRL-based reports, allowing users to view and resolve validation errors before submitting the report to authorities.
6. Design Content: This option switches from view mode to design mode, allowing the user to customize and design the content.
7. Conditional Content: By clicking on this content, users can view all available elements set to Display: Always or Display: Conditional, excluding those marked as Display: Never.
8. Report Comparisons: This feature enables users to compare a report from the previous version to this version. A comparison report can be viewed using this feature.

Report Settings (Global Templates)

Report | Settings have 5 functions as shown in the screenshot above.

1. General

- a. **Rounding | Scaling:** This section is used to adjust rounding and scaling of report values.

Rounding Scaling		
⊕ Copy Column ✎ Rename Column		
☐	Description	Value
☐	Rounding [1, 1000, 1000000]	1000
☐	Scaling [1, 1000, 1000000]	1000

- b. **Page Headers| Page Footers:**

The **Header/Footers Report Settings** tab allows users to enable or disable headers and footers within the report.

Users can define custom headers or footers by selecting the '**Other**' option and entering the desired text in the corresponding column.

To change the order of headers or footers, users can modify the **Order of Value** field in the respective row.

Additionally, users can adjust the placement and alignment of headers and footers, as illustrated in the image below.

☐	Header Text	Left Aligned Text	Centre Aligned Text	Right Aligned Text
☐	Legal Name	☐	☐	☐
☐	Short Name	☐	☐	☐

☐	Period	0

There are 3 types of tables available in the report.

1. **Standard table:** Standard tables have three columns for Current year, Prior year and Prior Prior year. The same set of periods are available for both Consolidated Entity and Parent Entity.

The screenshot shows the Thomson Reuters Statutory Reporting web application. The user is in the 'Entity' tab, viewing a report for '31 Dec 2024 - TR Example Group'. The left sidebar shows 'Standard Table' and 'Non-Standard Table' options. The main area displays the 'Standard Table' configuration for 'Note 1 - Section 1'. It includes a 'Note Description' field, a 'Copy Column' button, and a 'Rename Column' button. Below this, there is a table structure for 'Entity 1' with columns: Description, Section, Row Ref., Current Period, Prior Period, and Prior Period 2 (End). The table has a 'NewRow' button and a 'Σ' (sum) row.

2. **Non - Standard table:** Non-standard tables are completely editable, both columns and rows can be designed based on the requirements.

Each Non-Standard Table(NST) generally represents a single period (an NST can also be modified, and all the time periods can be shown in a single table) and for a particular entity hence users can import multiple NST for multiple reporting periods.

The screenshot shows the Thomson Reuters Statutory Reporting web application. The user is in the 'Entity' tab, viewing a report for '31 Dec 2024 - TR Example Group'. The left sidebar shows 'Standard Table' and 'Non-Standard Table' options. The main area displays the 'Non-Standard Table' configuration for 'Note 1 - Section 1'. It includes a 'Non-Standard Table' header with 'Add', 'Delete', 'Copy Column', and 'Rename Column' buttons. Below this, there are three table structures for 'Entity 1': 'Current Period | End', 'Prior Period | End', and 'Prior Period 2 | End'. Each table has columns: Description, Section, Row Ref., and Column 1. The tables have a 'NewRow' button and a 'Σ' (sum) row.

Additions/deletion/edit of rows and columns can be done using above mentioned tools.

Different expressions can be added/deleted/edited in the NSD tables as mentioned below. These expressions are used to auto update the values.

Retained earnings	Cash flow hedge reserve	Cost of hedging reserve	Fai
\$25,929,000.00	(\$70,000.00)		\$9,
\$0.00			
\$0.00			
\$7,928,000.00			
\$257,000.00	\$ (618,000.00)	000.00)	(\$6
\$80,000.00			
			(\$4

- Add Expression
- Edit Expression
- Remove Expression
- Restore Default
- Revert To Template
- Default Definitions ▶

These tables can be inserted into the report via 2 alternatives.

Alternative 1: Go to section Non-Import [Custom] edit a standard/non-standard table and copy it to the required area. (Only for standard and non-standard table)

Alternative 2: Add report element and select standard table from the available list.

Grid Vs Category: Grid tables are completely editable, and users can insert amounts manually whereas in category tables users can pull the categories and the amount will be automatically displayed in the table.

- Manual table:** Manual tables are basic tables that allow users to insert an empty structure and manually enter the required details into each cell. Unlike standard or non-standard tables, manual tables do not support automatic updates.

Predefined Lists

Predefined lists are list values built into the template that can be selected via dropdowns in the disclosure screens. For details of the predefined lists in the template, please see Appendix A.

This option comes under the Administration section. There are 5 types of predefined lists, please see below for types and their respective underlying option:

Users can add/delete/import/export predefined list as mentioned above.

1. Signatory: This section provides an option to select where the signatory details should be added in the report.

Add Delete	
☐ Actions	List Values
☐	None
☐	Directors Report
☐	Balance Sheet
☐	Both

2. Taxonomy reference: This section is applicable for XBRL templates. User can select the applicable taxonomy here.

☐ Actions	List Values
☐	kvk-rpt-jaarverantwoording-2022-nlgaap-micro-publicatiestukken
☐	kvk-rpt-jaarverantwoording-2022-nlgaap-klein-publicatiestukken

☐	CAD - Canadian Dollar
☐	CDF - Congolese Franc

Complex Disclosures

Clients can add additional inputs by inserting new elements. To do this, they need to place the cursor at the desired location in the report, where a '+' option will appear, as shown below.

Add Report Element provides users all below mentioned options:

Users can insert above mentioned elements into the report just by clicking on above. They can further modify the report elements based on their requirements.

Configuring the Contents Page

The Contents Page can be modified as mentioned below in variables section. This provides which Table Of Contents(TOC) level needs to be included in the TOC.

Below mentioned conditions/ report variables are used to make sure which elements should part of the contents page.

At the same time, users need to configure how each section, folder, or element should be included in the Table of Contents (TOC) by assigning the appropriate levels. This can be done by clicking the '**Include in Contents**' option, as shown below.

Variables

Variables are defined within the report for commonly used words, dates and values so the variable can be amended in one place and flow through the whole report.

Users can change common words throughout reports via this dialog.

For example, if users wish to change all references to the *income statement* to be *profit and loss statement* instead – they can change it once in the report wording variables dialog and it will update throughout the report.

Users are also able to create / delete / reorder report wording variables by using the controls at the bottom of each dialog and these controls are also pictured below.

Variables generally come under report settings. There are variable options provided for 2 elements as mentioned below

1. Text: These variables are generally used for auto updating the text part. They are further subdivided as below:
 - a. General : The general tab relates to the entities description, directors and shareholders descriptions and tax rates.

- b. Report | Statement: The report statement tab relates to the names of the various statements and sections of the report.

Variables	
Add Delete Copy Column Rename Column	
☐ Name	Value

2. Table: These variables are generally used for auto updating the tables. They come under General:

Style Sets

This section has already been explained above under report options.

There are different style sets for providing bullet points as mentioned below:

—	📁 Bullets
—	📁 List Level 1
	📄 Alpha Item
	📄 Bullet Item
	📄 Numeric Item
	📄 Roman Item
—	📁 List Level 2
	📄 Alpha Item
	📄 Bullet Item
	📄 Numeric Item
	📄 Roman Item
—	📁 List Level 3
	📄 Alpha Item
	📄 Bullet Item
	📄 Numeric Item
	📄 <u>Roman Item</u>
	📄 Bulletpoint

The list of levels helps users to handle the indentation. Users can get these options by clicking on ‘Add Report Element’ as mentioned under Complex disclosures.

Settings Specific to the Template

- The template is based on IFRS and AASB
- The template contains full year and half year financial statements
- The template can be used for consolidated financial statements
- Entity 1 is Group/Consolidated and entity 2 is Company/Parent
- The template can be used for entity size small, medium and large
- The language of the template is English

Below Mentioned points are the difference between the IFRS and Australia template.

Main Menu Options (Australia Templates)

As mentioned above main menu has following options. Few features are similar to the global template but placement of them are different in AU template.

- 1) Entity Summary: This section is used to enter entity-related details such as
 - a) Entity Details
 - i) Template – Displays Template
 - ii) Entity Structure – Shows the Structure of the Entity

- iii) General Details – Shows General Information of the Entity.

b) Management

- i) Officers - Details of the officers can be entered by users as shown in the image below. Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

- ii) Key Management Personnel - Details of key management personnel can be entered by users as shown in the image below. Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

c) Addresses and Service Providers

- i) Addresses - Address of the reporting entity along with its main office/ office/ principal place of business, registered office, other branch office, factory or industry details can be added in this section.

Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

- ii) Service Providers - Details of service providers to the reporting entity are given here. Also, users can add details of Additional service providers.

Users can add additional information beyond the default fields by inserting extra rows and columns using the **+Add** option.

d) Report Options

- i) Entity and Period Settings – This tab gives the option to select the period to view.

- ii) Report Settings – This tab gives us the specific settings options for the selected Report template view.

- (a) General Settings of the Template – Show Continued on Level 3 Headings, Apply singular/plural to sentences where required, Registration Number, Directors' Report / Directors' Declaration, Rounding and Scaling.

(b) Page Footer

Footer Text	Value	Other (if selected)	Enable
☐ Left Aligned Text	Date and Timestamp		☐
☐ Centre Aligned Text	Legal Name		☒
☐ Right Aligned Text	Page Number Only		☒

(c) Note Heading Numbering

Note Numbering Type	Note Numbering Type Description
☐ 1	Number (e.g. 1, 2)
☐ 2	Alpha Lower (e.g. (a), (b), (c))
☐ 3	Alpha Upper (e.g. (A), (B), (C))
☐ 4	Roman Lower (e.g. i, ii, iii)
☐ 5	Roman Upper (e.g. I, II, III)
☐ 6	Qualified Section Number (e.g. 1.1, B2)

Note Level	Note Numbering Type	Prefix	Suffix
☐ 1	1		-
☐ 2	6		
☐ 3	2		)
☐ 4	4	(	)
☐ 5	5	(	)
☐ 6	6	(	)
☐ 7	3		

- iii) Report Table Settings – This tab gives us the specific settings options for Table Columns, Table Header and Comparatives for the selected Report template view.

Entity 1 (Column 1) ☒

- (1) Table Columns Settings – Has settings specific to – Entity 1 (Column 1), Entity 2 (Column 1), Entity 1 (Column 2), Entity 2 (Column 2), Entity 1 (Column 3) and Entity 2 (Column 3).

- iv) Report Wording Variables - This tab gives us the specific settings options of the text Variables used for the selected Report template view.

The screenshot shows the Thomson Reuters Statutory Reporting interface. The top navigation bar includes 'Entity Summary', 'Import / Account Assignment', 'Journals', 'Disclosures', 'Additional Disclosures', 'Reports', and 'Period Setup'. The main header displays '31 Dec 2021 - AUCTY SAN (DO NOT DELETE)'. On the left, a sidebar lists categories: 'General', 'Report and Primary Statements (Full Year)', 'Date and Period (Full Year)', and 'Other'. The 'General' category is selected. The main content area shows 'Report Options > Report Wording Var... > General'. Below this, there is a 'Variables' section with a table that has two columns: 'Name' and 'Value'. The table is currently empty, and there are buttons for 'Add', 'Delete', 'Copy Column', and 'Rename Column' above it.

(1) General – Contains General Template Text Variables

The screenshot shows the Thomson Reuters Statutory Reporting interface with the 'Report and Primary Statements' tab selected. The main content area displays a table of variables. The table has two columns: 'Name' and 'Value'. The variables listed are:

Name	Value
EntityDescription	Group
CorporateDescription	Company
DirectorDescription	director
ShareholderDescription	shareholder
ParentDescription	Parent
Company tax rate (Percentage) (Current Period)	30.0
Company tax rate (Percentage) (Prior Period)	30.0
ConsolidatedEntityDescription	Consolidated entity
ParentEntityDescription	Parent entity
NotesDescription	Notes

(2) Report and Primary Statements – Contains Text Variables that are template-specific and related to the Primary Statements of the Template.

The screenshot shows the Thomson Reuters Statutory Reporting interface with the 'Date and Period' tab selected. The main content area displays a table of variables. The table has two columns: 'Name' and 'Value'. The variables listed are:

Name	Value
Report	annual financial report
DirectorsReport	directors' report
CorpGovStatement	corporate governance
IncomeStatement	consolidated statement of profit or loss
StatementComplIncome	consolidated statement of comprehensive income
BalanceSheet	consolidated statement of financial position
StatementCashFlows	consolidated statement of cash flows
StatementChangesInEquity	consolidated statement of changes in equity
NotesToInStatement	Notes to the consolidated financial statements
DirectorsDeclaration	directors' declaration
AuditReport	Independent auditor's report
FinancialStatements	consolidated financial statements
LegalName	AUCTY SAN (DO NOT DELETE)
ShortName

d) Account Assignment (Entity) – Steps are the same as the IFRS Template.

- i) Account Assignment (Entity) Maintenance - This tab gives options to modify and map Accounts at the Entity Level of the Template.

- 3) Journals – This tab displays all the Trail Balances uploaded to the Templates for different periods of time and their Details.

- 4) Disclosures – This tab displays all the information in the Standard & Non-Standard tables within the Template Report.

This section includes all tables, which are prepared in accordance with the applicable legislative requirements and are used in the annual financial statements.

Non-category tables are those in which the amounts are not linked to the trial balance. These values can be manually entered by users.

Additionally, users have the option to add expressions within these tables to populate amounts automatically.

- a) Director's Report
- b) Financial Statements
- c) Assets
- d) Liabilities
- e) Equity
- f) Income
- g) Expenses
- h) Other Notes
- i) Appendix

5) Additional Disclosures – This section provides empty non-category tables, where users can customise, the table based on their requirements. Please refer to the image below.

Features provided to edit the table:

- >> +Add: Used to add more rows
- >> Delete: Used to delete any row
- >> +Copy Column: Used to add a Column
- >> Rename Column

Contents Specific to the Australia Template

Australia template provides below mentioned Reports:

1. Annual Report
2. Half Year Report
3. Account Listing Report (Category Name, Description and Amount)
4. Auto Report – Consolidated
5. Auto Report – Parent
6. Category Listing
7. Category Summary – Expenses by Function
8. Category Summary – Expenses by Nature
9. Category Summary – Primary
10. Category Summary – Rounding Variance
11. Entity Specific Account Assignment Report
12. Entity Structure Report
13. Journal Summary Report
14. Journal Summary Report – New
15. Rounding Account Summary Report
16. Template Verification Report
17. Trial Balance
18. Trial Balance Per Entity (Including Account Assignment)

1. Annual Report

AU.CTO Latest – Financial Statements and Notes Summary

Primary Financial Statements

1. Directors' Report

Purpose:

Provides a narrative overview of the group's principal activities, major events during the year, financial highlights, changes in group structure, risks, governance, and outlook.

What's Included:

- Principal activities and changes
- Review of operations and results
- Significant changes in state of affairs
- Events after the reporting period
- Likely developments and expected results
- Environmental regulation
- Directors' and company secretary information
- Meetings of directors
- Remuneration report
- Dividends paid and recommended
- Corporate governance statement

2. Independent Auditor's Report

Purpose:

Expresses an external auditor's opinion on whether the financial statements present a true and fair view in accordance with accounting standards.

What's Included:

- Audit scope
- Auditor's opinion
- Key audit matters
- Independence declaration

3. Consolidated Statement of Profit or Loss

Purpose:

Shows the group's financial performance for the year, including revenues, expenses, and net profit or loss.

What's Included:

- Revenue
- Cost of sales

- Gross profit
- Operating expenses
- Finance costs
- Tax expense
- Net profit/loss

4. Consolidated Statement of Comprehensive Income

Purpose:

Expands on the profit or loss by including other comprehensive income items.

What's Included:

- Profit/loss for the year
- Other comprehensive income (OCI): revaluation gains, foreign currency translation, changes in fair value of financial instruments
- Total comprehensive income

5. Consolidated Statement of Financial Position

Purpose:

Presents the group's assets, liabilities, and equity at the reporting date.

What's Included:

- Current and non-current assets
- Current and non-current liabilities
- Equity (share capital, reserves, retained earnings)

6. Consolidated Statement of Changes in Equity

Purpose:

Reconciles opening and closing balances for each equity component.

What's Included:

- Movements in share capital, reserves, retained earnings, and OCI
- Profit, dividends, share issues, other equity transactions

7. Consolidated Statement of Cash Flows

Purpose:

Summarizes cash inflows and outflows by activity.

What's Included:

- Operating activities
- Investing activities
- Financing activities
- Reconciliation to cash at period end

Notes to the Consolidated Financial Statements

1. Significant Changes in the Current Reporting Period

Purpose:

Highlights key events and transactions that affected the group's financial position and performance.

What's Included:

- Major acquisitions/disposals
- Asset impairments
- Issuance of convertible notes
- Restructuring and rationalisation
- Correction of errors

2. Segment Information

Purpose:

Explains how the group is managed and reports financial information by business segment.

What's Included:

- Description of reportable segments
- Segment revenue, assets, liabilities
- Adjusted EBITDA and reconciliation to profit
- Geographic information

3. Revenue from Contracts with Customers

Purpose:

Details revenue recognition policies and disclosures.

What's Included:

- Disaggregation of revenue by product, region, or segment
- Contract assets and liabilities
- Performance obligations
- Critical judgements in revenue recognition

4. Material Unusual Profit or Loss Items

Purpose:

Discloses significant items affecting profit or loss.

What's Included:

- Gains/losses from asset sales
- Impairments
- Litigation settlements
- Recognition of tax losses

5. Other Income and Expense Items

Purpose:

Breaks down other operating income and expenses.

What's Included:

- Dividends, interest income
- Government grants
- Analysis of expenses by nature

6. Income Tax

Purpose:

Explains current and deferred tax, tax reconciliation, and significant estimates.

What's Included:

- Tax expense breakdown
- Reconciliation of effective tax rate
- Deferred tax assets/liabilities
- Unrecognised tax losses
- Pillar Two tax disclosures

7. Financial Assets and Financial Liabilities

Purpose:

Details group's financial instruments and related accounting policies.

What's Included:

- Classification and measurement
- Fair value hierarchy
- Risk exposures (credit, market, liquidity)
- Offsetting arrangements
- Supplier finance arrangements

8. Non-financial Assets and Liabilities

Purpose:

Provides information on non-financial assets and liabilities.

What's Included:

- Property, plant and equipment
- Leases (right-of-use assets, lease liabilities)
- Investment properties
- Intangible assets and goodwill
- Deferred tax balances

- Inventories
- Employee benefit obligations
- Provisions

9. Equity

Purpose:

Explains movements in share capital, reserves, and retained earnings.

What's Included:

- Share issues, buy-backs, options
- Dividend reinvestment plan
- Nature and purpose of reserves

10. Cash Flow Information

Purpose:

Reconciles profit to cash flows and details non-cash transactions.

What's Included:

- Reconciliation of profit to operating cash flows
- Non-cash investing and financing activities
- Net debt reconciliation

11. Critical estimates, judgements and errors

Purpose:

Identify areas of measurement uncertainty and any prior-period error corrections/estimate changes.

What's included:

- List of key judgments/estimates (revenue, impairment, fair values, pensions, provisions, tax, supplier finance presentation, consolidation and joint arrangement decisions)
- Correction of prior depreciation error (line-by-line restatements and EPS impact)
- Revision of useful lives and forward impact.

12. Financial risk management

- Purpose: Describe the risk framework, exposures, hedging, and sensitivities.
- What's included: Risk matrix (FX, interest, price, credit, liquidity); derivative classification and fair value; hedge accounting reserves roll-forward; FX risk (forecast purchase hedges with forwards/options, NIFO hedge, sensitivities); interest rate risk (variable borrowings, swaps coverage, effects tables, sensitivities); equity price risk (index shocks); credit risk policies, concentrations, collateral, ECL

methodologies and roll-forwards for trade, contract assets, amortised cost and FVOCI debt; liquidity risk — facilities, maturity analyses (including supplier finance) and cash flow tables.

13. Capital management

- Purpose: Explain capital objectives, gearing metrics, and covenants.
- What's included: Gearing ratio calculation and movements; strategy; loan covenants (and compliance); dividend policy interactions with franking credits.

14. Business combinations

- Purpose: Present acquisition accounting under AASB 3/IFRS 3.
- What's included: Example Electronics Group acquisition — consideration (cash and shares), fair value of net assets, goodwill rationale, acquisition costs, contingent consideration valuation and derecognition, contingent liability for lawsuit, acquired receivables fair value/ECL, choice for NCI measurement, revenue/profit contribution and pro-forma results, purchase price allocation tables, and cash outflow schedule.

15. Discontinued operations

- Purpose: Isolate results/cash flows of disposed component and provide disposal accounting.
- What's included: Description and timing of sale of Example Engineering GmbH; P&L and cash flow for the discontinued period; gain/loss on disposal, contingent/earn-out asset at FVTPL and remeasurement; carrying amounts at disposal; held-for-sale balance sheet table at prior year-end; cumulative FX reserve recycling.

16. Interests in other entities

- Purpose: Disclose subsidiaries, NCI, joint arrangements, associates/JVs, and related judgments/restrictions.
- What's included: Material subsidiaries list and special consolidation judgment (control with <50%); significant restrictions (e.g., exchange controls); NCI summarised financial info; transactions with NCI (step-acquisition/partial buy); joint operation classification and accounting; associates/JVs rationale (significant

influence), commitments/contingent liabilities, summarised financial info and share of results.

17. Contingent liabilities and contingent assets

- Purpose: Report possible obligations/assets not recognised on balance sheet.
- What's included: Claims (retail sales contract suit; patent litigation with probability assessment and potential range); associate/JV contingencies; contingent asset from supplier arbitration; qualitative assessments.

18. Commitments

- Purpose: Show contracted but unrecognised capital and other commitments.
- What's included: Capital expenditure commitments (including Example Venture); investment property repair/maintenance commitments; comparative tables.

19. Events after the reporting period

- Purpose: Capture material post-balance-date events not reflected in the financials.
- What's included: Acquisition of Example Limited (percentage, consideration, provisional PPA, goodwill rationale, contingent consideration); refinancing of loan facility (limits, tenor, modification gain to be recognised in 2026); dividend recommendation details; statement on information not yet available (provisional amounts).

20. Related party transactions

- Purpose: Provide transparency on transactions/balances with parents, subsidiaries, KMP and other related parties.
- What's included: Parent structure; KMP compensation totals; purchases from KMP-related entities (construction, rent, legal); balances outstanding; loan details to/from related parties and terms; normal-course employee purchases; pricing/terms assertions; references to remuneration report for detail.

21. Share-based payments

- Purpose: Explain equity and cash-settled compensation plans, fair values, and expense recognition.

- What's included: Employee Option Plan terms (TSR hurdle, grant/exercise data, Black-Scholes/Monte Carlo inputs, vesting outcomes); deferred shares under STI (grant mechanics, net settlement for tax, vesting and forfeiture); employee share scheme for broader staff; September 2025 cash-settled SARs and mark-to-market inputs; total SBP expense breakdown.

22. Remuneration of auditors

- Purpose: Show audit and non-audit fees to safeguard independence transparency.
- What's included: Fees to ABC Auditors (group network) and other firms, broken down by service type; narrative on non-audit services review.

23. Earnings per share

- Purpose: Present basic and diluted EPS and reconcile numerators/denominators.
- What's included: EPS computation (adjusted for rights issue/DRP bonus element); treatment of partly paid shares, options, deferred shares, convertible notes, preference shares; reconciling profit figures; weighted average shares.

24. Offsetting financial assets and liabilities

- Purpose: Explain where offsetting is applied or possible under master netting.
- What's included: Tables of recognised instruments subject to offset/netting; trade receivable/payable netting arrangements (volume rebates); net presentation of borrowings and restricted cash where legally enforceable; ISDA disclosures (not currently enforceable).

25. Assets pledged as security

- Purpose: Identify collateral against borrowings and leasing restrictions.
- What's included: Lists and carrying amounts of assets pledged; lease covenant restrictions on ROU assets.

26. Deed of cross guarantee

- Purpose: Provide relief disclosure for wholly-owned entities under ASIC Instrument 2016/785.
- What's included: Entities in the closed/extended closed group; combined (closed group) income statement/OCI/retained earnings and balance sheet summaries.

27. Parent entity financial information

- Purpose: Present parent-only condensed financials and specific parent commitments.
- What's included: Parent balance sheet and equity; guarantees for subsidiaries" borrowings/leases; contingent liabilities and contractual commitments; tax funding and tax consolidation arrangements; accounting policy distinctions for the parent.

28. Summary of other material accounting policies

- Purpose: Gather remaining significant policies for completeness and comparability.
- What's included: Basis of preparation (IFRS/AAS compliant; measurement bases; new/adopted standards — supplier finance, covenants, sale-leaseback); upcoming standards (AASB 18 and other amendments) with expected presentation impacts; consolidation, segments, FX, revenue, grants, income taxes, leases, business combinations, impairment, cash, receivables, inventories, held-for-sale, financial instruments (classification, measurement, impairment), hedging, financial guarantees, PPE, investment property, intangibles, payables, borrowings, borrowing costs, provisions, employee benefits and share-based payments, equity, dividends, EPS, GST. Also, policy update on borrowings classification under amended AASB 101.

29. Changes in accounting policies

- Purpose: Disclose policy changes and their effects to maintain transparency and consistency period-to-period.
- What's included: Revisions from AASB 101 amendments on classification of borrowings with covenants; statement that there was no reclassification effect this year; clarification on current/non-current classification assessment timing.

2. Half Year Report

Purpose:

This report gives a timely mid-year check-in so investors, lenders, and regulators can see performance, liquidity, and risks without waiting 12 months; supports covenant monitoring, capital-raising, and market transparency.

Content:

Half year traits in Notes to the Consolidated Financial Statements:

- Condensed disclosures under AASB 134, meant to be read with the 30 June 2024 annual statements
- Focus on movements since year-end (new credit facility, covenant headroom, mid-year impairments/provisions, acquisition updates)
- Auditor review report (not a full audit opinion)

Numbering/structure:

- Half year notes run 1–18 and are concise; FY notes run 1–29 plus additional statutory/gov-report sections and many sub-notes.

3. Account Listing Report (Category Name, Description and Amount)

Purpose:

Lists all account codes with their names, mapped category codes and names, and the corresponding financial amounts for the current and prior periods.

Content:

- Columns: Account code, Account name, Category code, Category name, Total (current period), Prior Period Total.
- Provides a direct link from transactional accounts to reporting categories and their monetary values.
- Useful for detailed account-level analysis and for validating mapped amounts in summary reports.

4. Auto Report - Consolidated

Purpose:

Presents a summarized view of key financial categories for the consolidated entity, showing values for both current and prior periods.

Content:

- Lists major categories (e.g., Trade payables, Interest payables) with corresponding amounts for Jan-Dec 2024 and Jan-Dec 2023.
- Shows both the account-level and standardized category-level breakdowns.
- Useful for high-level review and comparison of key financial statement lines over time.

5. Auto Report - Parent

Guidance:

This report is similar to above Auto Report - Consolidated but focused on the Parent Entity. It would summarize key financial statement lines for the Parent Entity for current and prior periods.

6. Category Listing

Purpose:

A reference report listing all category codes used in reporting, along with their descriptions.

Content:

- Columns: Category Code, Category Description.
- Includes categories for the balance sheet, profit and loss, and various sub-categories (e.g., BS.A.CA.INVENT.RM – Raw materials (at cost)).
- Used as a lookup or reference for interpreting codes in other reports.

7. Category Summary – Expenses by Function

Purpose:

Summarizes expenses by their functional classification (e.g., cost of sales, selling, administrative, other operating expenses).

Content:

- Columns: Description (e.g., FUNCTION.COSTSALES.DEPRECIATION), values for current/prior periods, and sometimes half-year splits.
- Shows the breakdown of expenses into functions such as cost of sales, selling, admin, etc.
- Useful for functional analysis of operating expenses.

8. Category Summary – Expenses by Nature

This report would summarize expenses by their nature (e.g., wages, depreciation, raw materials), rather than by function. It would typically show total amounts for each nature category for the current and prior periods.

9. Category Summary – Primary

Purpose:

Presents a summary of key financial categories (assets, liabilities, equity, revenue, expenses) for the current and prior periods.

Content:

- Columns: Description, values for Jan-Dec 2024 and Jan-Dec 2023, for both Consolidated Entity and Parent Entity, and totals.
- Includes both account-level and standardized category-level lines.
- Used for overall financial statement review and reconciliation.

10. Category Summary – Rounding Variance

Purpose:

Shows the impact of rounding on reported amounts at the category level.

Content:

- Columns: Description, Rounding Difference, Unrounded Amount, Rounded Amount (for multiple periods/entities).
- Lists each category and shows if rounding has caused any difference between unrounded and rounded totals.
- Useful for audit trail and reconciliation of reported numbers.

11. Entity Specific Account Assignment Report

Purpose:

Similar to the Account Assignment [Entity] Report, but tailored to a specific entity, showing how its account codes are mapped to reporting categories.

Content:

- Columns: Account Code, Description, Standardized Assignment for the entity.
- Ensures the specific mapping is clear for each entity, supporting entity-level reporting and consolidation.

12. Entity Structure Report

Purpose:

Shows the structure of entities being reported, including relationships and reporting codes.

Content:

- Lists entities (e.g., TR Example Company – IFRS CTY) and their reporting codes.
- Provides the entity tree structure, showing parent and subsidiary relationships.
- Essential for understanding the scope of consolidation and reporting.

13. Journal Summary Report

Purpose:

Summarizes all journal entries posted for the period, including debits and credits by account.

Content:

- Columns: Date, Reference, Entity Code/Name, Journal Name, Reporting Period, Account Code, Account Description, Debit, Credit.
- Lists all transactions posted to the ledger, supporting audit and reconciliation.
- Shows original trial balance entries and any adjustments

14. Journal Summary Report (New)

Update of Journal Summary Report.

15. Rounding Account Summary Report

Purpose:

Shows the categorization and summary of accounts used for rounding purposes.

Content:

- Columns: Code, Description, Category Assignment.
- Identifies rounding accounts and their classification in the reporting structure.
- Ensures transparency in handling rounding differences.

16. Template Verification Report

Purpose

- Record and justify removing duplicated templated values, note cause, method, and safeguards to prevent recurrence.

Content

- Brief summary of duplicates and deletions.
- Scope (file, timeframe, tools).
- Detection method.
- Affected tables (1–2: Path, Value, Expression) with sample before/after.
- Removal criteria and counts.
- Post-change validation/QA.
- Root cause and preventive actions.
- Appendices (lists, scripts, changelog).

ss

17. Trial Balance

Purpose:

Lists all accounts, their descriptions, and balances for the current and prior periods.

Content:

- Columns: Code, Description, Period ending balances for 31-12-2024 and 31-12-2023.

- Provides the raw data for financial statement preparation and reconciliation.
- Used as the basis for mapping to reporting categories.

18. Trial Balance Per Entity (Including Account Assignment)

Purpose:

Shows the trial balance for each entity (Consolidated Entity, Parent Entity), including the mapping of each account to its reporting assignment.

Content:

- Columns: Account, Description, Assignment (category code and description), Consolidated Entity/Parent Entity balances for current and prior periods, and totals.
- Allows for entity-level analysis and supports consolidation by showing both the original account and its mapped reporting line.

Note on Consolidated Entity and Parent Entity:

- Consolidated Entity = group-level view
- Parent Entity = standalone parent company view
