	Foreign exchange differences recogniserecognized in profit or loss are classified in the same category in the statement of profit or loss as the income or expense on the item that gave rise to the foreign exchange difference. Where this involves undue cost or effort, the Group classifies them under operating activities.

In accordance with IFRSPFRS 10, intragroup monetary assets or liabilities between the parent and its subsidiaries that do not constitute part of the net investment in a foreign operation are eliminated in full upon consolidation. However, any foreign exchange differences arising from such balances continue to be recogniserecognized in the consolidated statement of profit or loss. The Group classifies these foreign exchange differences under the default category of operating activities within the statement of profit or loss.

	Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale. Assets and liabilities classified as held for sale are presented separately as current items in the statement of financial position. Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit or loss.

	Having considered the disaggregation principles under IFRSPFRS 18, the Group has concluded that separate presentation of realiserealized and unrealiserealized components does not provide materially useful information to users of the financial statements. Accordingly, gain and losses on financial assets at fair value through profit or loss are presented on an aggregated basis, and no separate line item or note disclosure is provided.
