DEFECT CORRECTIONS & NOTABLE CONTENT UPDATES

CONTENT UPDATE

There is no content update in this release.

CORRECTIONS

ITEM ID	TITLE	DETAILS AND LIMITATIONS
1864485	Correct tagging issues with 'Bankers' disclosure	Edited the disclosure to allow more than ten "banks" to be listed, with the first ten tagged as the taxonomy only provides for this number.
1917334	Remove border clearance sections	Edited the spacing between notes to improve the presentation and alignment when the financial statements report is exported to iXBRL.
1917462	Remove empty cells from the 'Details of undertakings list' disclosure	Correct the issue resulting in filing errors when the report contains empty cells. Corrected throughout the report, not just within the 'Investments' note where the issue was first detected.
1912330	Updates to the 'Income tax' disclosure	Edited both Group and Company 'Tax on profit on ordinary activities' disclosure to remove the default which was causing issues on the web.
1917464	Correct 'Cover page' font size when viewed at Companies House	Edited the style used on the 'Cover page' so the page views the same on the Companies House validation service as it does in Accounts Production.
1917515	Amend the 'Tax Reconciliation' categories for consistency with the UK and ROI templates	Edited the wording of the tax reconciliation categories, found in the predefined list which in turn links to the XBRL tagging, to ensure these match the tags in the taxonomy and are consistency with the wording used in other templates.
1917519	Update the display condition on note 'Operating profit'	Display condition edited to use the same categories used in the table within this note.

1917518	Updates to the 'Income tax' disclosure	Edited both Group and Company disclosures on these tabs for consistency with the other UK and ROI templates.
1917893	Amend disclosure 'Average number of employees' so it can accommodate zero as the average number of employees	Note updated to display zero as the number of employees where no number entered on the Disclosure tab.

FEATURES

ITEM ID	TITLE	DETAILS AND LIMITATIONS
1917305	Add option for a text disclosure of 'Officers interest in shares'	New text disclosure added within 'Directors Interest in Shares and Material Transactions'.
1917517	Update to "material accounting policies" per IAS1 amendment	The accounting policy description has been updated from "significant accounting policies" to "material accounting policies".

IMPACT ON EXISTING CLIENTS

ITEM ID	
1	Where a report element template has been edited and therefore has not updated to the latest update, customers will need to take that update if they receive a taxonomy error. This is a result of taxonomy changes mentioned above and need to apply to the new XBRL tag dimensions.

DEVIATIONS FROM STANDARD CONFIGURATION

ITEM ID	
1	There are no deviations from the standard configuration.

KNOWN ISSUES

ITEM ID	DETAILS AND LIMITATIONS
1	When exporting the report to Word, unless the report includes three or more signatories, use the vertical presentation otherwise the export will stop at the signatories.
2	Unable to correct issues exporting the report to Excel but this can be resolved by removing/unticking the Contents Page so this isn't included in the export.
