Definition of QCM

PPC's Practice Aids for Audits of School Districts are quality control materials (QCM). The American Institute of Certified Public Accountants (AICPA) defines QCM as materials (for example, manuals or tools), including industry- or subject matter-specific materials, intended to enable the operation of a firm's system of quality control and promote consistency in performing quality engagements. QCM may be made available through technology, for example, through automated tools and techniques, and IT applications.

QCM address standards and interpretive guidance related to accounting; audit, attestation, review, compilation, or preparation engagements or other services that CPA firms may provide; or ethics, independence, quality control, quality management, peer review, or practice monitoring related to those services.

Other QCM Providers

The elements of the QCM provided and within this description are delivered by Thomson Reuters (Tax and Accounting) Inc. (Thomson Reuters) and no other QCM provider.

Characteristics of the QCM

The Practice Aids provide the following:

- A full set of practice aids to perform an audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS) of the financial statements of school districts covered by the AICPA Audit and Accounting Guide, *State and Local Governments*. The Practice Aids are intended to be used in conjunction with the guidance in *PPC's Guide to Audits of Local Governments (ALG)*.
- Practice aids to perform an audit under the additional standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (commonly referred to as a Yellow Book audit).
- Limited practice aids to perform the compliance portion of a single audit (the additional procedures required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*). The Practice Aids are not intended to be used for program-specific audits other than assisting with compliance testing of selected school district programs included in the *OMB Compliance Supplement*.

The Practice Aids provide a means to document compliance with relevant standards and interpretive guidance and include illustrative auditor's reports; engagement, management representation, confirmation, and other illustrative letters; checklists; and audit programs. The Practice Aids are designed to complement, rather than replace ALG. As such, the audit, accounting, and reporting guidance included in the chapters of ALG are not repeated in the Practice Aids. Accordingly, references to ALG are included throughout the Practice Aids to direct auditors to that extensive guidance.

**Description, as of February 8, 2024, of the Content of PPC's Practice Aids for Audits of School Districts, March 2023, 9th Edition
(Continued)**

The Practice Aids address engagement-level quality control requirements but do not address firm-level quality control system requirements. Consequently, the Practice Aids are intended to be used in conjunction with PPC's *Guide to Quality Control*.

For single audits, the Practice Aids do not include certain practice aids with guidance based on the Office of Management and Budget (OMB) *Compliance Supplement*. Thus, the Practice Aids are intended to be used in conjunction with PPC's *Government Documents Library* (the "Library") and the applicable OMB *Compliance Supplement*. The Library provides the most recent government documents, as well as PPC's compliance audit programs and other practice aids, which reflect the most recent edition of the OMB *Compliance Supplement*. The Library is intended to be used in conjunction with the Practice Aids by auditors performing single audits and is updated as necessary to keep the documents current.
