PPC's Guide to Preparing Financial Statements, October 7, 2024, 42nd Edition (the Guide), is available in print and online at Checkpoint.RIAG.com. The Guide consists of chapter text, illustrative financial statements, and disclosure checklists.

Definition of QCM

PPC's Guide to Preparing Financial Statements are quality control materials (QCM). The AICPA defines QCM as materials (for example, manuals or tools), including industry- or subject matter-specific materials, intended to enable the operation of a firm's system of quality control and promote consistency in performing quality engagements. QCM may be made available through technology, for example, through automated tools and techniques, and IT applications.

QCM address standards and interpretive guidance related to accounting; audit, attestation, review, compilation, or preparation engagements or other services that CPA firms may provide; or ethics, independence, quality control, quality management, peer review, or practice monitoring related to those services.

Other QCM Providers

The elements of the QCM provided and within this description are delivered by Thomson Reuters (Tax and Accounting) Inc. (Thomson Reuters) and no other QCM provider.

Characteristics of the QCM

The Guide provides guidance on preparing financial statements of nonpublic companies in accordance with accounting principles generally accepted in the United States of America (GAAP). The Guide also discusses certain accounting issues unique to nonprofit organizations, automobile dealerships, retailers, and construction contractors; and includes a Trends volume that provides illustrative, nonauthoritative financial statements.

The Guide provides a means to document compliance with the relevant accounting standards in the form of financial statement disclosure checklists for both nonpublic companies and nonprofit organizations.

Relevant Standards and Interpretive Guidance Addressed by the Guide

The Guide addresses relevant accounting standards issued and effective by the Financial Accounting Standards Board (FASB) through October 7, 2024, and up to FASB Accounting Standards Update (ASU) No. 2024-02, *Codification Improvements—Amendments to Remove References to the Concepts Statements*.

Although the following may not be fully effective at the time of publication, the user applying the guidance in the Guide must evaluate each standard's applicability and effective date based on the period covered in each specific engagement.
