Definition of QMM

PPC's Guide to Compilation and Review Engagements are quality management materials (QMM). The AICPA defines QMM as materials (for example, manuals or tools), including industry- or subject matter-specific materials, intended to enable the operation of a firm's system of quality management and promote consistency in performing quality engagements. QMM may be made available through technology, for example, through automated tools and techniques, and IT applications.

QMM address standards and interpretive guidance related to accounting; audit, attestation, review, compilation, or preparation engagements or other services that CPA firms may provide; or ethics, independence, quality control, quality management, peer review, or practice monitoring related to those services. QMM would be considered an intellectual resource as described in QM section 10, *A Firm's System of Quality Management*.

Other QMM Providers

The elements of the QMM provided and within this description are delivered by Thomson Reuters (Tax and Accounting) Inc. (Thomson Reuters) and no other QMM provider.

Characteristics of the QMM

The Guide provides the following:

- A full set of guidance and practice aids to perform compilations and reviews in accordance with Statements on Standards for Accounting and Review Services (SSARSs) of the financial statements of nonpublic for-profit entities, regardless of ownership structure, prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- Limited guidance and practice aids for compilations of financial statements included in a prescribed form and limited guidance and practice aids for compilations and reviews of personal financial statements.
- Limited guidance and practice aids for preparations of financial statements in accordance with GAAP and for compilations and reviews of financial statements presented in accordance with a special purpose framework.

The practice aids provide a means to document compliance with relevant standards and interpretive guidance and include illustrative accountant's reports; engagement, management representation, and other illustrative letters; checklists; and engagement programs. The unique characteristics and the necessary responses and procedures that would apply to certain specialized industries or entities are not addressed

Relevant Standards and Interpretive Guidance Addressed by the Guide

Preparation, Compilation, and Review Standards and Interpretive Guidance

The Guide addresses relevant preparation, compilation, and review standards and interpretive guidance issued and effective by the Accounting and Review Services Committee (ARSC) of the AICPA through May 31, 2025.

Although the following may not be fully effective at the time of publication, the user applying the guidance in the Guide must evaluate each standard's applicability and effective date based on the period covered in each specific engagement. The following preparation, compilation, and review standards were issued before May 31, 2025, and are fully incorporated into the Guide, with dual guidance provided:

- SSARS No. 26, *Quality Management for an Engagement Conducted in Accordance With Statements on Standards for Accounting and Review Services*, is effective for engagements performed in accordance with SSARSs for periods beginning on or after December 15, 2025, other than the amendment to AR-C 90.16, which was effective upon issuance. The amendment to AR-C 90.16 is fully incorporated into the Guide. SSARS No. 26 does not prohibit early implementation.
- SSARS No. 27, *Applicability of AR-C Section 70 to Financial Statements Prepared as Part of a Consulting Services Engagement*, is effective for the preparation of financial statements for periods ending on or after December 15, 2026, with early implementation permitted.

In addition, accounting standards with disclosure requirements are included in the Disclosure Checklists (Appendixes 5C-1 and 5C-2).

The Guide addresses relevant accounting standards issued and effective by the Financial Accounting Standards Board (FASB) through May 31, 2025, and up to FASB Accounting Standards Update (ASU) No. 2025-04, *Compensation—Stock Compensation (Topic 718) and Revenue from Contracts with Customers (Topic 606): Clarifications to Share-Based Consideration Payable to a Customer*.
