FIND NEW DRUG DEVELOPMENT OPPORTUNITIES AND EVALUATE POTENTIAL PARTNERS BEFORE ANYONE ELSE

Whether you’re putting together a pipeline analysis, or developing a comprehensive competitive intelligence study, Cortellis™ Competitive Intelligence can get you to the critical information you need faster.

Designed to address everyday challenges faced when collecting information for competitive analysis, Cortellis Competitive Intelligence helps you quickly and easily form a complete picture of the competitive landscape.

RIGOROUSLY REVIEWED, MANUALLY CURATED, AND DYNAMICALLY UPDATED DATA FROM MULTIPLE SOURCES

Drug pipeline, deals, patents, and companies content, coupled with latest industry news, is brought together in an intuitive intelligence tool. From one source, see your chosen indications, actions, and companies in context—speeding up decision making by providing the exact information you’re looking for the first time.

Web-based delivery and a fast search and navigation experience means you can find the relevant information anytime, anywhere.

USE CORTELLIS COMPETITIVE INTELLIGENCE TO GET TO ANSWERS FASTER

There are a number of modules available for Cortellis Competitive Intelligence. Derive greater insights from expanded patents, literature, broker research, event transcripts, clinical trials, disease briefings, and investor meeting intelligence, along with expanded analytics features.

USE CORTELLIS TO
- Research competitor pipelines
- Identify market gaps early
- Look for potential partners
- Assess comparable deals
- Discover targets with active patenting activity
- Review a company’s strategic portfolio
- Derive insights from global conferences

WHAT’S INCLUDED

The latest information on:
- Drug pipelines
- Deals
- Companies
- Patents
- Global conferences
As well as the latest industry news

- Drug Reports provide detail of the current and historical development status of a drug. These reports provide information from the companies involved in the drug’s discovery and development to chemical structure, details and indications in discovery and development, pre-clinical data, ongoing and completed clinical trials, as well as patent information and more—all one place.
- Company Reports include details on company areas of research, their financial state, and drug pipeline. They also include reported sales and consensus forecasts on company drugs and listings of significant partnerships and drug licensing deals.
- Deal Reports include a summary and breakdown of financial information (where available), milestones, timelines, and relevant drugs and patents associated with each deal.
- Patent Reports include abstracts to emphasize the novel aspect of the invention, the most representative claimed structure, patent expirations for granted patents, and infringement information.
- Reported and forecasted sales figures for specific years are available for all companies involved in the marketing of a specific drug.

As of Q3 2014, Cortellis Competitive Intelligence includes:

57,000+ drug monographs
12,000+ detailed company records (111,000+ organizations in total)
250 patent abstracts written each week
40,000+ deal reports

Also available are 195,000+ clinical trials reports
