

THOMSON REUTERS DEALS

Thomson Reuters is a global leader in investment banking transaction data for M&A and New Issues Deal coverage – Over 2.5 million transactions announced in 225 nations since the 1970s.

Thomson Reuters Deals data allow you to monitor deal flow, identify market trends and gain insight into your competitive positioning within any region, asset class or industry vertical at highly flexible levels of granularity. Our industry leading League Table rankings of investment banks and law firms published by dozens of leading media outlets worldwide, leverage our global news and sourcing capabilities along with our strong relationships with the deal making community to ensure data accuracy and completeness.

ADVANTAGE

Thomson Reuters is widely regarded as the benchmark in the financial industry for transactional information, market share reporting, and volume analyses. Dozens of major business publications regularly publish Thomson Reuters league tables and support their reporting with insights from Thomson Reuters.

SOURCES

Thomson Reuters comprehensive Deals content is sourced through direct deal submissions from global banking and legal contributors coupled with extensive research performed by a global team of dedicated research analysts across a broad range of sources, including regulatory filings, corporate statements, media, and pricing wires to attain the most robust information pertinent to a transaction.

VALUE ADD

Thomson Reuters leads the market in producing league tables that reflect the marketplace, collaborating closely with global deal practitioners to set league table criteria. Quarterly investment banking market reviews are distributed to the dealmaking community and featured in leading global financial publications, including the Financial Times, the New York Times Dealbook, the Wall Street Journal, the Globe and Mail and South China Morning Post. Thomson Reuters Deals content is used to monitor deal flow, identify trends, analyze market share, monitor banking relationships and competitors, structure new deals and search for comparable transactions.

QUALITY

More than 2,500 pre-product quality control validations occur at the point of data entry, with over 1,000 intra-day and nightly quality control checks that validate the data before reaching clients.

TIMELINESS

M&A, Bonds, Equity, Syndicated Loans and Public Financing content is updated hourly.
